

CA 120 RS Operable Window- Casement

Application/ Intended Use

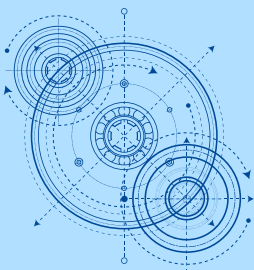

Designed to maximize ventilation and minimize the risk of water damage, mold and corrosion. Sleek, modern look with superior energy efficiency. The CA 120 RS Casement window can be incorporated into the CA 114 RS and CA 152 RS shown above and both the CA 50 and the CA 63 series of curtain wall.

Head + Sill Detail

Features

- Seamless construction to eliminate overlap
- Thermally broken casement design
- Rain screen design with drainage path
- Insect screens are optional, pre-fabricated to fit directly into casement
- Similar design as CA 120 RS Awning window allows for ease of installation

Ratings

- Tested based on the following: AAMA/WDMA/CSA (Classification 101/I.S.2/A440-08) CW-PG70
- The following results are with reference to CAN/CSA A440-00:
 - Air Tightness (A=3)
 - Water Tightness (8=7)
 - Wind Load Resistance (C=5)
 - Insect Screen Strength (S=1)
 - Forced Entry Resistance (F=20)
 - Condensation Resistance I= 61
