

# CA 120 RS Operable Window- Awning

## Application/ Intended Use

A top hung projecting out window designed to minimize the risk of water damage, mold and corrosion. Sleek, modern look with superior energy efficiency. The CA 120 RS awning window is based on a rain screen design. It can be incorporated into the CA 114 RS and CA 152 RS shown above and both the CA 50 and CA 63 curtain wall series.

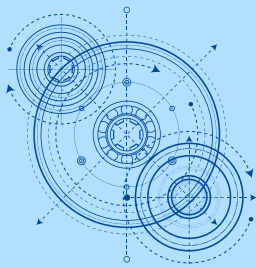

## Head Detail

## Sill Detail

## Features

- Fully thermally broken awning with frame design
- Insect screens are optional, pre-fabricated to fit directly into casement
- Similar design as CA 120 RS Casement allows for similar construction and ease of installation

## Ratings

- Tested based on the following: AAMA/WDMA/CSA (Classification 101/I.S.2/A440-08) CW-PG70
- The following results are with reference to CAN/CSA A440-00:
  - Air Tightness (A=3)
  - Water Tightness (8=7)
  - Wind Load Resistance (C=S)
  - Insect Screen Strength (S=1)
  - Forced Entry Resistance (F=20)
  - Condensation Resistance I= 63
